SAPC 2261P
Copy 2 of 6

23 December 1957

The Ramo-Wooldridge Corporation
Los Angeles 45, California

Gentlemen:

You are hereby authorized to furnish two spare amplifiers with the delivery of each G rack.

This is not an additional requirement but a request that the two spare amplifiers be delivered concurrently with the equipment. If the two spare amplifiers are not included in the spare listings for this equipment they should be as soon as possible.

Very truly yours,

25X1

Contracting Officer

PS/DCI:DMKelly:pf

- 5 - Proj. Chrono

25X1

Jack Dams recommends that
all of racks have two spare amplifiers.
Can you supply two for our second
rack without interference to 9 rack
believe? If not, how much
interference?

JD

ILLEGIB

George K.

Can you authorize?

JD

yes - memo to Dan necessary. We
will authorize to R-W. Will
coordinate with Duke & Ernie

Ernie —

Any objection to proposal of Jack I am
that each G rack have
2 spare amplifiers. But
indicates only effect might be
to delay C racks. We have all
four of our C racks, I believe.

Don

Status of C racks is confused.
[redacted] shipped 8 to [redacted]
in P.C. and have a "record" of
only 3 returned. (2 of which
incidentally have been "modified"
and cannibalized and R & W will
bill us for this. As to the
G rack, I don't know the
reliability factors as yet but
I would think that at least
1 spare amplifier is reasonable.
I think the decision is for 1 spare
or 2 spare amplifiers.
